Book Reviews

In Aping Mankind, Tallis says that two intellectual trends underlie this problem The first is a Darwinian-inspired pessimism that he labels “Darwinitis” The second, which he calls “neuromania,” uses brain science to explain our behavior, and claims that consciousness is identical with brain activity

Raymond Tallis on tickling - Johan Grimonprez

You start your book Aping Mankind: Neuromania, Darwinitis and the Misrepresentation of Humanity by disagreeing with John Gray’s claim that

“mind serves evolutionary success, not truth”? You argue in de-fence of wonder, that wonder is the proper state of humankind, rather than that we humans are born nasty as a result of being vehicles for
